(Amherst, NY): Amherst Town Hall will be closed at 11am today

Amherst Town Supervisor Brian Kulpa has announced that Amherst Town Hall, located at 5583 Main Street in Williamsville, is **closed today (Friday, July 5, 2019) at 11am** due to a malfunction of the air conditioning system.

The malfunction occurred when the well water pump and motor used to cool the building failed. As a result, the temperature inside the building is above 95 degrees. A contractor will be onsite Monday July 8th to install a new motor on the well water system.

Employees who normally report to work at Amherst Town Hall are asked not to report to work today. In addition, previously scheduled appointments for members of the general public with any departments based inside the building are canceled and will have to be rescheduled at a later date.
