ChangingAging Tour

The ChangingAging Tour is a live theater event that offers a positive view of aging that challenges misconceptions and stigma. Led by Dr. Bill Thomas, Physician, farmer, innovator and founder of the Green House Project and Eden Alternative. The tour is a series of lunches, workshops and performances designed to de-stigmatize aging and inspire community. Our marquee event features a format we call "non-fiction theater."

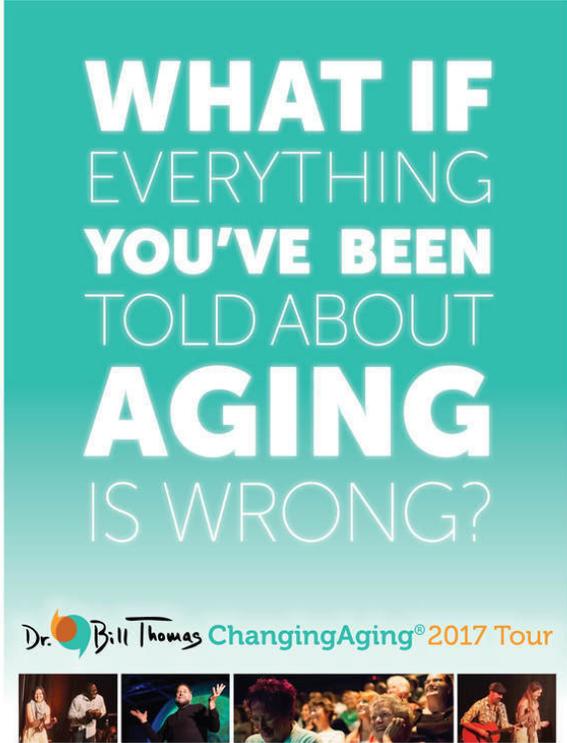

There will be two performances:

- "Disrupt Dementia" at 2-4:30 pm
- "Life's Most Dangerous Game" at 7-8 PM

ChangingAging Ticket Information:

The ASCF is pleased to offer tickets for \$10 each, a 50% discount, or attend both performances for \$15 per person. Tickets can be purchased online at ChangingAging.org using discount code ASCF.

Held at the Amherst Center for Senior Services, 370 John James Audubon Parkway, Amherst NY 14228.
